Bangkok, Thailand

EDUCATION

Chulalongkorn University
B.Eng. Computer Engineering and Digital Technology (CEDT)
2024 – Present · Third-year student

SKILLS

Data & Analytics

Python (pandas) · SQL / PostgreSQL · Tableau · Regression · Correlation Analysis · Market Basket Analysis · Machine Learning · NLP · GeoPandas · Folium

Business

Requirement Gathering · Business Case Analysis · Financial Statement Analysis · Presentation · E-commerce

Development

FastAPI · Streamlit · React · Next.js · Express.js · LINE Messaging API · Git · CI/CD

LEADERSHIP & ACTIVITIES

Shopee Case Competition 2026
Participant

TACC 2026
Participant

ICPC Asia Bangkok Regional 2025
Head of Welfare

CEDT Guild Building 2025
Guild Master

CEDT Innovation Summit 2025
Head of Welfare

CEDT Ovenbreak 2025
Welfare Staff

Intania Games 2024
Coordinator

Patcharapon Srisuwan

Business & Data Analyst · Full-stack Developer

Third-year Computer Engineering student who combines business analysis, data analysis and hands-on software development. Analyzed national card-payment data at the Bank of Thailand, gathered client requirements and built Tableau dashboards at The Red Carbon, and runs an online store backed by a self-built order-management system.

EXPERIENCE

Data Analyst Intern · Bank of Thailand
Jun – Jul 2026

Payment Systems & FinTech Department, Data Team

- Analyzed nationwide credit and debit card usage data to uncover insights into payment behavior
- Tested card spending as a fast economic indicator by analyzing its correlation with GDP
- Clustered Thai provinces by card usage to find groups with similar payment behavior
- Presented findings and recommendations to department directors

Business Analyst Intern · The Red Carbon Co., Ltd.
May – Aug 2025

- Gathered and documented business requirements from clients
- Analyzed business data and built Tableau dashboards to support client decisions
- Co-wrote a client Half-Year Report turning multi-source marketing data into trends and recommendations

Owner · Online Motorcycle Parts Store
May 2024 – Present

E-commerce Manager · Shopee, Lazada, TikTok Shop

- Run an online shop across Shopee, Lazada and TikTok Shop
- Manage the store's marketing campaigns
- Built MTMS, an in-house FastAPI + PostgreSQL system that merges orders from all three platforms to generate daily order and shipping reports

PROJECTS

Cocoa Supply Chain Databank · Senior Capstone
Jul 2026 – Present

- Adding a LINE OA AI chatbot (FastAPI, LiteLLM) so cocoa farmers can submit supply-chain data by chat
- Manage the product backlog, data management and CI/CD pipeline across Next.js, Kotlin, Go and Flutter services
- Preparing the team's pitch for the STEM Learning in Action Grant 2026

E-commerce Sales Analysis
Oct – Nov 2025

- Ran market basket analysis and SKU trend tracking in Python on Lazada and TikTok sales data to find product bundles and demand shifts

Bangkok Flood Risk Forecasting
Oct – Dec 2025

- Analyzed three years (2022–2024) of Bangkok Traffy Fondue complaints in Jupyter: report trends, tag frequency and seasonal flood peaks
- Found roads, drains and canals to be the issues most often reported with flooding, and measured how long flood reports take to resolve
- Mapped flood reports by subdistrict with choropleth and time-series heatmaps (GeoPandas, Folium); the notebooks became the Data Insight page of the team's Streamlit dashboard

TACC 2026 · SCGJWD
2026

- Assessed SCGJWD's financial performance and logistics strategy through financial statement analysis
